

REFRESHER EDUCATION PROGRAM

If an MLT has been away from professional practice or does not meet CMLTA's practice hour requirement, they are required to complete refresher training. Please refer to the points below to determine what is required of you and the information below for course options that have been approved by the CMLTA.

- An individual who has some MLT practice hours in the past four years, but does not meet the 900-hour requirement, must complete one approved refresher course option listed below from one of the following areas of practice: Hematology, Transfusion Science, Clinical Chemistry, Microbiology, or Histology. The refresher course option taken must be relevant to the MLT's current role.
- An individual who has been out of practice for four to ten years must complete one approved refresher course option listed below from each of the five areas of practice (Hematology, Transfusion Science, Clinical Chemistry, Microbiology, and Histology).
- An individual who has been out of practice for 10 years or more must complete one approved refresher course option listed below from each of the five areas of practice (Hematology, Transfusion Science, Clinical Chemistry, Microbiology, and Histology). In addition to these courses, the individual must also complete two approved general refresher course options.

Note:

- If a course option contains more than one course, all courses must be completed.
- Courses vary in cost and length of time.
- All courses are online and are offered at different times of the year.

Hematology Refresher Course Options

Option #	Institution/Course Provider	Course Code	Course Name
1	Saskatchewan Polytechnic	HEMA-1800	Hematology Refresher
2	British Columbia Society of Laboratory Science (BCSLS)	BCSLS B2B HEM	Back to Basics Hematology
3	The Michener Institute for Applied Health Sciences	HE837	Tutorials in Hematology & Coagulation
4	Southern Alberta Institute of Technology (SAIT)	HEMA 001	Hematology (Theory)

Transfusion Science Refresher Course Options

Option #	Institution/Course Provider	Course Code	Course Name
1	Saskatchewan Polytechnic	TRFS-1800	Transfusion Science Refresher
2	The Michener Institute for Applied Health Sciences	IH903	Tutorials in Transfusion Science
3	Southern Alberta Institute of Technology (SAIT)	MEDL 104	Transfusion Medicine Theory Refresher

Microbiology Refresher Course Options

Option #	Institution/Course Provider	Course Code	Course Name
1	Saskatchewan Polytechnic	MICR-1800	Microbiology Refresher
2	The Michener Institute for Applied Health Sciences	MI905	Tutorials in Microbiology
3	Southern Alberta Institute of Technology (SAIT)	MBIO 102	Clinical Microbiology

Clinical Chemistry Refresher Course Options

Option #:	Institution/Course Provider	Course Code	Course Name
1	Saskatchewan Polytechnic	CHEM-1804	Clinical Chemistry Refresher
2	The Michener Institute for Applied Health Sciences	CC859	Tutorials in Clinical Chemistry I
		CC860	Tutorials in Clinical Chemistry II
		CC861	Tutorials in Clinical Chemistry III
3	Southern Alberta Institute of Technology (SAIT)	CHEM 102	Analytical Chemistry
		CHEM 104	Clinical Chemistry (Theory)
		UANL 101	Urinalysis
4	British Columbia Society of Laboratory Science (BCSLs)	BCSLs B2B CHEM	Back to Basics Chemistry

Histology/Histotechnology Refresher Course Options

Option #	Institution/Course Provider	Course Code	Course Name
1	Saskatchewan Polytechnic	HSTC-1800	Histotechnology Refresher
2	The Michener Institute for Applied Health Sciences	HI901	Tutorials in Histology
3	Southern Alberta Institute of Technology (SAIT)	MEDL 102	Histology

General Refresher Course Options

Option #	Institution/Course Provider	Course Code	Course Name
1	Southern Alberta Institute of Technology (SAIT)	MEDL 125	Laboratory Results Correlation and Case Studies
2	Northern Alberta Institute of Technology (NAIT)	MELT 503	General Laboratory Practices
3	Northern Alberta Institute of Technology (NAIT)	MELT 506	Quality Management
