### **From Legislation to Practice: What the Health Professions Act Means for Medical Laboratory Technologists (MLTs)**

Regulation may seem complex, but it plays a vital role in protecting the public and guiding professional practice. This webinar will explain how the Health Professions Act shapes the regulation of Medical Laboratory Technologists in Alberta and what it means for you as a regulated professional. We will also review legislative changes, including Bill 13, and discuss how they might impact the College and the profession in the future.

This session will be facilitated by CMLTA's Registrar, Maggie Fulford, and Gwen Harris. Bios are available on the event page.  
An online session will be provided later this year.
