Subject: 2026 CCP Resources 2

Maintaining competence throughout your career is an important **professional and regulatory responsibility**. The Continuing Competence Program (CCP) provides a structured approach for MLTs to reflect on their practice, identify learning needs, engage in meaningful professional development, and apply their learning to practice.

Completing the CCP is more than documenting activities; it is an opportunity to demonstrate your ongoing commitment to maintaining competence, strengthening your professional practice, and supporting safe, competent MLT services for the Alberta public.

As you work on your CCP, we encourage you to make use of the resources available to support your understanding of the program requirements, including:

- [CCP Learning Activity Decision Framework](#)
 - [CCP Manual](#)
 - [CCP Audit Rubric](#)
 - [CCP Activity Worksheet](#)
- [Instructional videos and guides](#)

Have questions about your CCP? Attend a CCP Question and Answer Session.

These informal sessions provide an opportunity to ask questions and seek clarification about CCP requirements, learning activities, Learning Plans, Activity Logs, reflections, audits, and other aspects of the program. **No presentation and no registration required.**

Next CCP Question & Answer Sessions:

Wednesday, October 28

12:00 p.m.–1:00 p.m. MT
